

## [NICOLE] XUN CAI

ORISE Postdoctoral Fellow, US Environmental Protection Agency (EPA), Chesapeake Bay Program Office

1750 Forest Drive, Suite 130, Annapolis, Maryland, 21401

Phone: 804-832-4816

Email: [xcai@chesapeakebay.net](mailto:xcai@chesapeakebay.net); [nicolecx12@gmail.com](mailto:nicolecx12@gmail.com)

Website: <https://nicolecx122.github.io>

Github: [https://github.com/nicolecx122/schism/tree/icm\\_Balg](https://github.com/nicolecx122/schism/tree/icm_Balg)

### Education

---

Ph.D. in Marine Science, 2022	Virginia Institute of Marine Science, William & Mary, VA
M.S. in Marine Science, 2018	Virginia Institute of Marine Science, William & Mary, VA
B.S. in Oceanography, 2015	Nanjing University, Nanjing, China

### Professional Experience

---

2022 – present	<b>ORISE Postdoctoral Fellow</b> , Chesapeake Bay Program Office, EPA, MD
2021 – 2022	<b>ORISE Fellow</b> , Chesapeake Bay Program Office, EPA, MD
Sep. – Oct. 2017	<b>International Visiting Fellow</b> , University of Oldenburg, Germany Advisor: Dr. Jörg-Olaf Wolff
2015 – 2021	<b>Graduate Research Assistant</b> , Virginia Institute of Marine Science, VA Advisors: Drs. Y. Joseph Zhang and Jian Shen

### Peer-Reviewed Publications

---

[8]. **Cai, X.**, Shen, J., Zhang, Y., J., Qin, Q., and Linker, L., 2023. Sea-level Rise Impacts on The Tidal Marshes and Estuarine Biogeochemical Processes. Journal of Geophysical Research: Biogeosciences. doi: 10.1029/2023JG007450.

Journal of American Water Resources Association. doi: 10.1111/1752-1688.12887.

## Grants

---

Mar. 2023	<b>ECO-DAS XV Fellow</b> , Association for the Sciences of Limnology & Oceanography (ASLO) and National Science Foundation (NSF), Honolulu, HI – “Enhanced Sulfide Flux by Resuspension: An Underestimated Piece to Estuarine Hypoxia” (\$3,337)
Apr. 2022	<b>W&amp;M Open Access Financial Assistance</b> , for publication in L&O Letter – “Bifurcate Responses of Tidal Range to Sea-level Rise in Estuaries with Marsh Evolution” (\$2,400)
Aug. 2020	<b>Commonwealth Coastal Research Fellowship</b> , VIMS, VA – for dissertation research focus which strategically advances VIMS’ advisory service to the Commonwealth of Virginia in areas such as water quality research, and management and resilience approaches. (\$31,245)
May 2019	<b>CSDMS Integration Scholarship</b> at <i>Community Surface Dynamics Modeling System meeting 2019</i> , Boulder, CO – “Impact of Submerged Aquatic Vegetation on Water Quality in Cache Slough Complex, Sacramento-San Joaquin Delta: A Numerical Study”

## Awards

---

Nov. 2023	<b>William R. “Randy” Boggess Best Paper Award</b> , American Water Resources Association – “A Numerical Study of Hypoxia in Chesapeake Bay Using an Unstructured Grid Model: Validation and Sensitivity to Bathymetry Representation.”
Mar. 2022	<b>Top Cited Article 2020-2021</b> , Journal of American Water Resources Association, Wiley – “A Numerical Study of Hypoxia in Chesapeake Bay Using an Unstructured Grid Model: Validation and Sensitivity to Bathymetry Representation.”
Oct. 2021	<b>Juliette B. &amp; Carroll W. Owens, Sr. Fellowship</b> , VIMS, VA – for academic performance and progress in the Ph.D. Degree Program
May 2019	<b>Best Poster Award</b> at <i>Southeastern Virginia Postdoctoral Symposium</i> , Gloucester Point, VA – “Numerical Study of Impact of Submerged Aquatic

## Vegetation on Water Quality in Cache Slough Complex, Sacramento-San Joaquin Delta”

**Teaching and Mentoring**

---

Aug. 2023 – present	Co-mentor of master student <u>Julia Abrao Teixeira</u> , VIMS, VA – thesis “Distribution and Fate of Floating Marine Debris from Major Estuaries along the US East Coast to the Mid-Atlantic Bight: A Lagrangian Particle Tracking Approach”
Nov. 2023	Guest lecture at class ENVR 1401 at the University of Texas Rio Grande Valley – “Water Quality Modeling, Climate Change, and Sea-level Rise” (UTRGV is a Hispanic Serving Institution)
May – Jul. 2023	Mentor of undergraduate summer intern <u>Philip Ignatoff</u> , William & Mary, VA – design of an 8-week research project “Revisit sediment diagenesis, bioturbation, and nutrient cycling” as a case study in Gadeken et al., in prep for <i>L&amp;O Letters</i>
Apr. 2019	Teaching lecture at SCHISM Summit workshop, Sacramento, CA – “Introduction of SCHISM-ICM water quality model”

**Invited Talks and First-author Conference Presentations**

---

Feb. 2024	Poster presentation at <i>Ocean Sciences Meeting 2024</i> , New Orleans, LA – “Impacts of sea-level rise on the tidal marshes and estuarine biogeochemical processes”
Nov. 2023	Oral presentation at <i>Coastal &amp; Estuarine Research Federation (CERF) 2023</i> Portland, OR – “Impacts of sea-level rise on the tidal marshes and estuarine biogeochemical processes”
May 2023	Oral presentation at <i>International Society for Ecological Modelling Global Conference</i> , Toronto, Canada – “Impacts of sea-level rise on the tidal marshes and estuarine biogeochemical processes”
Mar. 2023	Invited talk at the first annual meeting of NSF project CHALK – “Development of biogeochemical modeling of tidal wetlands estuarine waters of the York River”
Jun. 2022	Oral presentation at <i>Chesapeake Bay Symposium</i> , Annapolis, MD – “Impacts of sea-level rise on the material exchange between tidal marshes and the estuary”
Jun. 2022	Oral presentation at <i>Chesapeake Bay Symposium</i> , Annapolis, MD – “Development of a Next-Generation Tributary Model in the tidal James River”
Jun. 2020	Oral presentation at <i>Chesapeake Bay Symposium</i> , virtual – “Impacts of Sea-level Rise on Hypoxia and Phytoplankton Production in Chesapeake Bay: Model Validation and Assessment”

- Nov. 2019 Oral presentation at *Coastal & Estuarine Research Federation (CERF) 2019*, Mobile, AL – “Numerical Simulation of Impacts from Sea-level Rise on Hypoxia in Chesapeake Bay Using an Unstructured Grid Model: Validation and Assessment”
- Jun. 2016 Poster presentation at *Chesapeake Bay Symposium, 2016*, Williamsburg, VA – “Effect of pH on nutrients release and algal bloom in the Back River, Upper Chesapeake Bay”

### Service and Outreach

---

- 2021 - present Reviewer for *Geology*, *Journal of Geophysical Research: Biogeosciences*, *Ocean Modeling*, *Marine Pollution Bulletin*, *Journal of American Water Resources Association*, and USGS Colleague Review
- Jun. 2024 Session converner at Chesapeake Community Research Symposium 2024 – "Exploring the Linkage Between the Tidal Marsh Dynamics and the Key Processes in the Chesapeake Bay" (session proposal accepted)
- 2019 - 2022 VIMS Ombudsperson – Peer mentor and confidential resource for graduate students to promote conflict resolution for problems that arise in the university setting.
- Aug. 2019 Oral presentation at *A Scientist Walks into A Bar – Grad Student Edition* – “To Save the Fish by Removing Seagrass?”

### Professional Skills

---

- |                                    |   |
|------------------------------------|---|
| Numerical modeling                 | Semi-implicit Cross-scale Hydroscience Integrated System Model (SCHISM); Integrated Compartment Model (ICM) multi-dimensional water quality model; Sediment Flux Model; Tidal Marsh Model; Submerged Aquatic Vegetation Model; Benthic Algae Model; Benthic Feeder Model; Bioturbation Model; Sediment Transport Model; Wind Wave Model; Watershed and Airshed Coupling |
| Data analysis and machine learning | Harmonic Analysis, Empirical Mode Decomposition (EMD), Regressions, Decision Tree, Classification and Regression Trees (CART), Generalized Linear Models (GLM), Generalized Additive Model (GAM), Random Forest, Neural Network, Empirical Orthogonal Function (EOF)  |
| Programing skills                  | Fortran, Matlab, Python, HTML, Perl, and C  |
| Software                           | SMS, ArcGIS, CorelDRAW, STELLA  |
| Operating system                   | Unix for high-performance computing (HPC)   |

### Field Experience and Research Cruise

---

- Oct. 2017 RV HEINCKE HE498, CTD profiling at North Sea, 7 days.

Sep. 2017      Fish tagging cruise at Sacramento-San Joaquin delta, 1 day.
